Natural results for a more beautiful you...when only the best will do!

### Looking Great For Life!

As we age, our bodies change, and so do our expectations about how we look. Teens may wish to reshape or balance physical features; young adults may seek ways to

enhance their appearance; and more mature adults may focus on rejuvenating their skin and restoring definition to their faces or bodies.

Dr. Donna Rich is your partner in maintaining your beauty for life. She relies on her in-depth knowledge of the entire human body, its changes over time, and its response to environment and lifestyle, to assist her patients in choosing the best options for all stages of their lives.

Unlike others who may be trained in only a few cosmetic procedures, Dr. Rich is educated in the full spectrum of surgical and non-surgical care. As a board certified plastic surgeon, she has perfected her skills and techniques through one of the lengthiest and most comprehensive training programs in all of medicine.

Dr. Rich enjoys following her patients' progress, year after year, and believes that everyone can, indeed, get better with age, if they take care of themselves both inside and out. She proudly offers surgical, non-surgical, and spa level options in her facility, which features a fully accredited surgical facility and a relaxing skin care retreat.
